INDEXES

Volume 3 Author Index

Adashi EY 243
Adibi SA (book review) 277
Anderson MC (book review) 108
Arimura A 288

Barbieri RL 30
Barkan AL 205
Beck-Peccoz P 41
Ben-Jonathan N 254
Benoit R (book review) 149
Berelowitz M 127
Bertenshaw R (see Janssen OE)
Bilezikian JP (see Seibel MJ)
Bilezikjian LM 218
Bloom SR (see Macrae AD)
Bonjour J-P 301
Bougnères P (see Zeller J)
Brabant G 183
Brann DW 122
Bruno JF (see Berelowitz M)
Bryant-Greenwood GD (book review) 316

Canovatchel WJ (see Imperato-McGinley J)
Caverzasio J (see Bonjour J-P)
Chakraborty J (book reviews) 193, 277
Chin AT (see Wong PC)
Chrétien M (see Seidah NG)
Cidlowski JA (see Compton M)
Clarke JTR (book review) 192
Compton M 17
Cooper C 224
Cremer G (book review) 236

de Jong FH (see Lamberts SWJ)
DeLamater PV (book review) 351
Devesa J 175
Dias JA 24
Djiane J (see Kelly PA)
Dokas L (book reviews) 235, 347
Dumont JE 12
Duncia JV (see Wong PC)
Dunn JT (see Gaitan E)

Edery M (see Kelly PA)

Faber LE (book review) 381
Faglia G (see Beck-Peccoz P, Spada A)
Faivre-Bauman A (see Tixier-Vidal A)
Fehmann H-C 158
Franco-Saenz R (book review) 70
Franklyn JA 113
Freda PU 321

Gaitan E 170
Galton VA 96
Giustina A 306
Gonzalez EA 371
Gordon K (book review) 380
Gordon K 259
Gruber J (see Wick)

Habener JF (see Fehmann H-C)
Halimi J-M 270
Handwerger S 91
Herblin WF (see Wong PC)
Hershman JM (see Wong TK)
Hobkirk R (book review) 350
Hodgen GD (see Gordon K)
Hollenberg CH (book review) 70
Holub DA (book review) 348
Hoogwerf BJ (book review) 315
Hornstein MD (book reviews) 35, 192
Hsueh AJW 164
Hu Y-H (see Wick G)
Hutchinson KA (see Pratt WB)

Imperato-McGinley J 75

Janssen OE 49

Kelly PA 54
Kessler MA (see Schuler LA)
King JA 339
Koper JW (see Lamberts SWJ)

Lamberts SWJ 199
Lamy F (see Dumont JE)
LaPolt PS (see Hsueh AJW)
Levin JA (book review) 348
Lewis UJ 117
Licata AA (book review) 107
Lima L (see Devesa J)
Liu J-W (see Ben-Jonathan N)

Macrae AD 153
Maenhaut C (see Dumont JE)
Mahesh VB (see Brann DW)
Markoff E (see Handwerger S)
Martin KJ (see Gonzalez EA)
Martin TFJ 82
Martinez CR (see Root AW)
Melton LJ III (see Cooper C)
Meserve L (book reviews) 191, 314
Millar RP (see King JA)

Othersen HB Jr (book review) 313

Panksepp J (book review) 237, 382
Pascoe L (see White PC)
Persani L (see Beck-Peccoz P)
Pinter GG (book review) 148
Post KD (see Freda PU)
Potts JT Jr 376
Prank K (see Brabant G)
Pratt WB 326

Raisz LG (book review) 383
Rakita L (book review) 108
Refetoff S (see Janssen OE)
Reimann EM (book review) 69
Reiter EO (see Saenger P)
Richards R (see Handwerger S)
Rizzoli R (see Bonjour J-P)
Robertson DM 65
Robins SP (see Seibel MJ)
Rohan RM (see Adashi EY)
Root AW 283

Saenger P 249
Saffran M (book reviews) 35, 70, 279, 313, 380
Samson WK 86
Sawin CT (book review) 381
Scherrer LC (see Pratt WB)
Schöfl C (see Brabant G)
Schuler LA 334
Sealey JE (see Halimi J-M)
Seibel MJ 263
Seidah NG 133
Sheppard MC (see Franklyn JA)
Silverberg SJ (see Freda PU)
Sims EAH (book review) 147
Sinha YN 100
Smith RD (see Wong PC)
Spada A 355
Steele MK 295

Takeda K (see Janssen OE)
Timmermanns PBNWM (see Wong PC)
Tixier-Vidal A 59
Trempe JP (book review) 237
Tresguerres JAF (see Devesa J)
Turgeon JL 360

Vale WV (see Bilezikjian LM)
Vallar L (see Spada A)
Vance ML 46
Veldhuis JD (book review) 276
Verbalis JG 1
Volpé R (book reviews) 38, 107, 317

Wakim NG (book reviews) 149, 194, 235, 276
Wardlaw SL (see Freda PU)
Waring DW (see Turgeon JL)
Wehrenberg WB (see Giustina A)
Weiss R (see Janssen OE)
White JD (see Berelowitz M)
White PC 229
Wick G 141
Wilhelmi AE (book review) 349
Wong PC 211
Wong TK 8

Yaylayan VA (book review) 351

Zeller J 366

Volume 3 Subject Index

A

α Subunit in pituitary adenomas 41
Acromegaly 205
Activin-binding protein/follistatin 65
Activins, local extragonadal roles 218
Adenomas, pituitary, α subunit in 41
Aluminum and renal osteodystrophy 371
Amino acids, excitatory, neurotransmission by 122
Amphibian metamorphosis, role of thyroid hormones in 96
Androgen insensitivity, complete 75
Angiotensin II from brain regulates LH and PRL secretion 295
Angiotensin II receptor antagonists and receptor subtypes 211
Angiotensin II receptor subtypes and antagonists 211
Apoptosis in thymocytes: programmed cell death 17
Asymptomatic hyperparathyroidism, management of (conference report) 376
Autoimmune disease: immunoendocrine interactions; the obese chicken model 141

B

Bone disease, metabolic: urinary pyridium crosslinks as markers of bone resorption 263
Bone resorption in metabolic bone disease: urinary pyridium crosslinks as markers 263
Book Reviews
ACTH, Cushing's syndrome, and other hypercortisolemic states (Prog Endocr Res, vol 5) 235
Advances in second messenger and phosphoprotein research, vol 23 69
Advances in second messenger and phosphoprotein research, vol 24 69
Antihormones in health and disease 381
Atlas of human sperm morphology 193
Autoimmune thyroiditis: approaches towards its etiological differentiation 317
Behavioral aspects of neuroendocrinology, vol 10 237
Benign and malignant tumors, vol 3 35
Biology and medicine into the 21st century 349
Biology of aging: observations and principles 347
Brain endocrinology, 2nd ed. 380
Case presentations in endocrinology and diabetes 70
(The) Climacteric hot flush (Prog Basic Clin Pharmacol, vol 6) 194
Clinical diabetes mellitus: a problem-oriented approach, 2nd ed 313
Computers in endocrinology: recent advances 348
Conferences Philippe Laudat 149
Contemporary diagnosis and management of pituitary adenomas 236
Current topics in neuroendocrinology, vol 10 237
Diabetes mellitus in the elderly: a practical guide 70
Diabetic complications: epidemiology and pathogenic mechanisms (Serono Symp, vol 69) 148
(The) Diabetic heart 108
(The) Endocrine pancreas (Compr Endocrinol, rev ser) 70
Endocrinology 381
Endocrinology of birds: molecular to behavioral 191
GnRH analogues in cancer and human reproduction: precocious puberty, contraception and safety issues, vol 4 192
GnRH analogues in reproduction and endocrinology, vol 2: GnRH analogues in cancer and human reproduction 35
Growth disorders: the state of the art 351
Hormonal communicating events in the testis (Serono Symp, vol 70) 277
Hormone toxicity in the newborn 382
Hormones and their action, part II (New Compr Biochem, vol 18B) 314
Hormones: from molecules to disease 35
Hyperparathyroïdisme primaire 383
Hypoglycaemia and human insulin 279
Inborn errors of metabolism (Nestlé Nutr Workshop Ser, vol 24) 192
Introduction to protein structure 380
(The) Maillard reaction in aging, diabetes, and nutrition 351
Major advances in human female reproduction (Serono Symp, vol 73) 276
Molecular and cell biochemistry: biological molecules 350
Molecular and cell biochemistry: energy in biological systems 350
Molecular and cellular regulation of calcium and phosphate metabolism (Prog Clin Biol Res, vol 332) 107
Neuroendocrine perspectives, vol 9 237
Obesity: towards a molecular approach (UCLA Symp Mol Cell Biol, vol 132) 147
Ovarian secretions and cardiovascular neurological functions (Serono Symp, vol 80) 149
Ovulation induction (Clin Perspect Obstet Gynecol Ser) 235
Plasminogen activators: from cloning to therapy (Serono Symp, vol 77) 316
Principles and practice of endocrinology and metabolism 348
Structure and function of the small intestine: delaying of absorption as a therapeutic principle—treatment of diabetes mellitus (Diabetes Forum Ser, vol 1) 277
Surgery for endocrinological diseases and malformations in childhood (Prog Pediatr Surg, vol 26) 313
Surgical endocrinology: clinical syndromes, 2nd ed 315
Surgical management of the diabetic patient 108
Testosterone: action, deficiency, substitution 276
Thyroid disease: endocrinology, surgery, nuclear medicine and radiotherapy 38
(The) Thyroid gland (Compr Endocrinol, rev ser) 107
Bovine placental PRL-related hormones 334
Brain angiotensin II in regulation of LH and PRL secretion 295

C

Calcitonin peptide inhibits TRH-stimulated PRL secretion 82
Cell death, programmed: thymocyte apoptosis 17
Collagen, urinary pyridium crosslinks in metabolic bone disease 263
Complete androgen insensitivity 75
Convertases of proproteins and prohormones, from the subtilisin family 133
Cross-talk between receptors for peptides and steroids, functional 360
Cryptorchidism, management of 249

D

Decidual PRL and other peptide hormones, physiology of 91
Diabetes mellitus, prorenin in 270
1,25-Dihydroxyvitamin D_3, phosphate homeostasis and hyperparathyroidism in early chronic renal failure 301

E

11β-Hydroxylase isoenzymes, disorders of 229
Endothelin: an endocrine role 153
Epidemiology of iodine deficiency 170
Evolution of GnRHs 339
Excitatory amino acid neurotransmission in neuroendocrine regulation 122

F

Follistatin/activin-binding protein 65
FSH, human, surface mapping 24

©1992, Elsevier Science Publishing Co., 1043-2760/92/$5.00

G

G protein oncogenes in pituitary tumors 355
GH secretion in humans, neuroendocrine control of 175
GH secretion: regulation by glucocorticoids 306
GH therapy in adults 46
GH: what is it and what does it do? 117
Glucagonlike peptide-I (7-37)/(7-36) amide, insulinotropic 158
Glucocorticoid receptor resistance due to long-term RU486 treatment 199
Glucocorticoids: regulation of GH secretion 306
Glycoprotein hormone α subunit in pituitary adenomas 41
GnRH and its analogues, clinical applications 30
GnRH antagonists, evolving role 259
GnRH evolution 339
Goitrogenesis and control of thyroid cell proliferation 12
Gonadotropin receptor regulation, molecular basis 164

H

Heat-shock proteins and steroid receptor folding 326
Heterocomplex of steroid receptors, composition of 326
Hyperparathyroidism, asymptomatic, management of (conference report) 377
Hyperparathyroidism, phosphate homeostasis and 1,25-$(OH)_2D_3$ in early chronic renal failure 301
Hypoglycemia in infants 366
Hyponatremia 1
Hypopituitarism, MRI in 283
Hypothalamic neuropeptide expression, regulation by peripheral metabolism 127
Hypothalamic TRH neurons: ontogeny of hormone biosynthesis and release 59
Hypothalamic–pituitary sarcoidosis 321

I

Illness, nonthyroid and thyroid function 8
Immunoendocrine interaction in autoimmune disease: obese chicken model 141
Infants, hypoglycemia in 366
Insulinotropic glucagonlike peptide-I (7-37)/(7-36) amide 158
Intraovarian regulation: peptidergic signaling systems 243
Iodine deficiency, epidemiology of 170
Isoenzymes of steroid 11β-hydroxylase, disorders of 229

L

Lactotrophs: endo-, para-, juxta-, and autocrine interactions 254
LH and PRL secretion is regulated by brain angiotensin II 295

M

Magnetic resonance imaging (MRI) in hypopituitarism 283
Metabolism, peripheral, regulates hypothalamic neuropeptide expression 127
Metamorphosis, amphibian, role of thyroid hormones in 96

N

Natriuretic peptides: a hormone family 86
Neuroendocrine regulation by excitatory amino acid neurotransmission 122
Neuropeptides, hypothalamic, regulation by peripheral metabolism 127
Neurotransmission by excitatory amino acids 122
Nonthyroid illness, thyroid function in 8

O

Obese strain chicken model of neuroendocrine interaction in autoimmune disease 141
Oncogenes for G proteins in pituitary tumors 355
Osteodystrophy, renal, and aluminum 371
Osteoporosis and thyroid 113
Osteoporosis, epidemiology of 224
Ovary: peptidergic regulatory signaling systems 243

P

PACAP vs VIP receptors 288
Peptidergic signaling systems regulating the ovary 243
Peptides, natriuretic: a hormone family 86
Peripheral metabolism regulates hypothalamic neuropeptide expression 127
Phosphate homeostasis, 1,25-dihydroxyvitamin D_3 and hyperparathyroidism in early chronic renal failure 301
Phospholipase C, inhibitory regulation by calcitonin peptide 82
Pituitary adenomas, α subunit in 41
Pituitary adenylate cyclase-activating polypeptide (PACAP) receptors: comparison with VIP receptors 288
Pituitary lactotrophs: endo-, para-, juxta-, and autocrine interactions 254
Pituitary tumors, oncogenes for G proteins in 355
Placenta, bovine, PRL-related hormones of 334
PRL action mechanisms: bearing of different forms of receptor on 54
PRL, decidual and other decidual protein hormones, physiology of 91
PRL and LH secretion is regulated by brain angiotensin II 295
PRL-related hormones of bovine placenta 334
PRL receptor forms: mechanism of PRL action 54
PRL secretion, TRH-stimulated, inhibition by calcitonin peptide 82
PRL variants 100
Prohormone and proprotein convertases of the subtilisin family 133
Proprotein and prohormone convertases of the subtilisin family 133
Prorenin in diabetes mellitus 270
Pulsatile patterns in hormone secretion 183
Pyridium crosslinks of collagen, urinary, in metabolic bone disease 263

R

Receptor forms, PRL 54
Receptors for peptides and steroids, functional cross-talk between 360
Receptors for pituitary adenylate cyclase-activating polypeptide (PACAP): comparison with vasoactive intestinal peptide (VIP) receptors 288
Renal failure, early chronic, phosphate homeostasis, 1,25-$(OH)_2D_3$ and hyperparathyroidism in 301
Renal osteodystrophy and aluminum 371
RU486: long-term treatment and glucocorticoid receptor resistance 199

S

Sarcoidosis, hypothalamic–pituitary 321
Steroid 11β-hydroxylase isozymes, disorders of 229
Steroid receptor folding by heat-shock proteins and composition of the receptor heterocomplex 326
Subtilisin-family proprotein and prohormone convertases 133
Surface mapping: hFSH vs other pituitary glycoprotein hormones 24

T

Thymocyte apoptosis 17
Thyroid cell proliferation, control of 12
Thyroid cell proliferation and goitrogenesis 12
Thyroid function in nonthyroid illness 8
Thyroid hormones and amphibian metamorphosis 96
Thyroid and osteoporosis 113
Thyroxine-binding globulin defects, molecular basis of inherited 49
TRH, ontogeny of hypothalamic synthesis and release 59
TRH-stimulated PRL secretion, inhibition by calcitonin peptide 82
Tumors, pituitary, oncogenes for G proteins in 355

U

Urinary pyridium crosslinks of collagen in metabolic bone disease 263

V

Vasoactive intestinal peptide (VIP) vs PACAP receptors 288
VIP vs PACAP receptors 288

©1992, Elsevier Science Publishing Co., 1043-2760/92/$5.00
